PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate focused on full-stack web development, with hands-on experience building Django, Django REST Framework, React, Tailwind CSS, and MySQL-based applications. Strong foundation in Python, Java, JavaScript, REST APIs, database design, and data structures. Passionate about building scalable software, solving real-world problems, and growing into a software engineering role.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript | **Backend:** Django, Django REST Framework, REST API development, JWT authentication basics | **Frontend:** React, HTML, CSS, Tailwind CSS, responsive UI design | **Database:** MySQL, database design, CRUD operations | **CS Fundamentals:** Data Structures and Algorithms, OOP, problem solving | **Data/ML Tools:** NumPy, Pandas, Matplotlib | **Tools:** Git, GitHub, VS Code, virtual environments

PROJECTS

Learning Management System (LMS) | May 2026 - Present | [GitHub](#)

Django, DRF, React, Tailwind CSS, REST API, role-based access

- Built a full-stack LMS with API-based frontend-backend integration for courses, users, enrollments, and dashboards.
- Designed role-based features and responsive UI components to support student/admin workflows.

Cartify - Multi-vendor eCommerce Platform | May 2026 - Present | [GitHub](#)

Django, DRF, REST API, vendor/product/order management

- Developed a multi-vendor eCommerce backend supporting vendors, products, carts, customer orders, and shopping workflows.
- Structured APIs for scalable product, cart, and order management across multiple vendor accounts.

Blog Backend Project | December 2026 | [GitHub](#)

Django, Tailwind CSS, MySQL, backend development

- Created a Django-based blog system for post management, categories, users, and database-driven content handling.
- Used MySQL and clean backend structure to organize CRUD operations and application logic.

Task Manager | December 2025 | [GitHub](#)

Django, Tailwind CSS, MySQL, CRUD

- Built a task management web app for creating, organizing, updating, and tracking tasks efficiently.
- Implemented database-backed CRUD features with a clean Django project structure.

Additional Projects: QR Code Generator (Python) - [GitHub](#) | Java OOP Banking Management Project (Java, OOP) - [GitHub](#)

EDUCATION

BRAC University | Bachelor of Science in Computer Science and Engineering | January 2023 - Present

CERTIFICATIONS

Python (Basic), HackerRank - [Certificate](#)

INTERESTS

Artificial Intelligence and Machine Learning, Software Engineering, Open-source Contribution
